(1 review) Product Description Series 200 pumps are popular for their rugged design for continuous service running, while the 250 series combines the power and repetitiveness of piston pumps with chemical-resistant aperture pumps to apply high pressure. The Series 200 offers feed rates of 10 to 120 gpd (1.5 to 18.9 lph) and operating pressure up to 150 psi (10.3 bar), while series 250 offers feed rates of up to 108 gpd (17 lph) and operating pressure up to 225 psi (15.5 bar). (customs specifications) Model Number Max Pressure (psi/kgm2) Output Capacity at Max PSI (gpd/lpd per head) Shipping Weight (lbs/kg) SERIES 200 200/210 150/10.5 10/37 17/7.7 200/215 150/10.5 15/56 17/7.7 200/220 150/10.5 20/75 17/7.7 200/230 125/8.5 30/113 17/7.7 200/240 125/8.5 40/151 17/7.7 200/260 125/8.5 60/227 17/7.7 200/280 100/7 80/302 17/7.7 200/2-100 100/7 100/378 17/7.7 200/2-120 80/5.5 120/454 17/7.7 SERIES 250 250/253 225/15.5 76.8/290.7 21/9.5 250/254 160/11 108/408.8 21/9.5 Description Standard Pumps Optional Series 200 Pump Head SAN PVC, Polypropylene, PPS, 316 SST Diaphragm & Valve Seats Hypalon Viton, Silastic, PTFE Coated Gaskets PTFE Ball Checks Ceramic PTFE, 316 SST Fittings PVC Polypropylene, PPS, 316 SST Discharge Tubing Polyethylene 1/2 NPT Connections Suction Tubing Flexible PVC 1/2 NPT Connections Motor Open TEFC Series 250 Pump Head PVC 316 SST Diaphragm & Valve Seats PTFE Gaskets PTFE Ball Checks Ceramic PTFE 316 SST Fittings PVC 316 SST Polyethylene Tube Discharge 1/2 NPT Connections Suction Tube Flexible PVC VGN 1/2 NPT Connections Motor TEFC (user specifications) Feed Control Rate. A heavy fan cools the engine with heat protection against overload. The standard of assembly is a bleeding valve. High torque engine transmissions communication. Provides the launch under maximum pressure. С 1936 года Pulsafeeder, Incorporated является признанным лидером в области обработки жидкостей, электронных контроллеров насосов и системных технологий. Мы всегда понимали, что лидерство состоит из многих аспектов, все в балансе: долгосрочные, высокая производительность продукции, комплексные решения приложения, инновационный инженерный дизайн, знающий и внимательный сервис, непрерывные улучшения в R и D и производственных процессов. Pulsafeeder упорно работает, чтобы сохранить этот баланс - всегда с целью обеспечить лучшие продукты и поддержку для наших клиентов. На рынке кондиционирования воды линейка продуктов Chem-Tech более 50 лет решает потребности профессионалов с помощью продуктов, которые: Надежные: Продукты, люди и услуги, and reliable and affordable when needed. Easy to use: Simple, intuitive products to work and maintain, with as few details as possible. Available: True value, including initial purchase, operating costs and maintenance, which results in the total cost of the gain of ownership. Long-term: Reliable, durable components, products and systems designed and manufactured to withstand service conditions.
